SHERYL BISSEN ELECTED VICE PRESIDENT OF ILA

A Library Systems Support technician for the Grinnell College Libraries, Sheryl Bissen returns to the Executive Board this time as Vice President/President-elect. Bissen was one of the founding members of the Support Personnel Roundtable and has served on Conference Planning, Finance Committee and the Iowa Library Association Foundation Board.

In her statement of professional concern Bissen stated “The recent additions of subdivisions for community college librarians, school librarians, friends and small libraries have enriched ILA in many ways. New learning and networking opportunities abound and these new members give ILA a more diverse membership base than ever before...Adequate funding for all types of libraries, including the State Library of Iowa and the Library Service Areas, is essential if we are to provide the quality libraries that Iowans deserve.”

Lorraine Borowski, Decorah Public Library Director, and Jennie Garner, North Liberty Community Library Assistant Director, were each elected to a three year term on the Executive Board.

Thank you for your service as members of the Executive Board to Jean Donham, Cornell College, Mt. Vernon; Kay Weiss, Burlington Public Library; and Betty Rogers, Coe College, Cedar Rapids for completing John Pollitz’s term.

Education through Iowa Libraries

Iowa libraries support education for all ages. Life-long learning and improved student achievement depend on well-trained librarians in public, school and college libraries.

To build on these achievements, Iowans and their libraries need:

- Restored funding to the Library Service Areas for training public librarians.
- Reinstatement of the Iowa Code requirement for certified teacher librarians in every school district.
- Funding of Iowa’s community colleges and Regents institutions sufficient to ensure adequate support for their libraries and the diverse services they provide.

Economic Development through Iowa Libraries

Iowa libraries are community assets and important partners in economic development. High quality libraries attract new residents, improve job skills, revitalize downtowns, provide vital information to small businesses, and connect Iowa communities to the global marketplace.

To build on these achievements, Iowans and their libraries need:

- Restored funding for the State Library to ensure its continued statewide leadership and the cost-effective delivery of information services to every library in Iowa.
- Increased support for public libraries through the Enrich Iowa direct state aid program.

Shared Services in Iowa Libraries

Iowa libraries collaborate at the local, regional and state levels to provide quality services by sharing resources, innovative ideas, and best practices. Resource sharing programs reduce duplication of materials and services. These partnerships provide rural and urban Iowans cost effective and equitable access to resources throughout the state.

To build on these achievements, Iowans and their libraries need:

- Increased funding for Open Access and Access Plus, programs that benefit Iowans directly by enabling all to use the libraries of their choice and to borrow from other library collections.

Effective Governance in Iowa Libraries

Iowa libraries are responsive and responsible to their local communities. Local control is essential to protecting the ability of local boards to reflect the needs of local communities.

To build on these achievements, Iowans and their libraries need:

- Continued support for the decision-making responsibilities of local library boards.
STATEMENT ON INFORMATION ACCESS

The Iowa Library Association asserts that a democracy will only flourish if its citizens have free access to information necessary to form solid opinions and to make informed decisions on issues affecting their lives. Thus, the ILA supports the principles of open access to such information no matter the medium in which it exists and without regard for the economic, political, and social conditions of those who seek such access. Toward this end, the ILA endorses and fully supports the American Library Association’s Library Bill of Rights and interpretations, Code of Ethics, Freedom to Read Statement, and the ALA Statement on Library Use of Filtering Software.

The ILA vigorously supports free and unfiltered access to the Internet in Iowa’s schools and libraries, a position consistent with the U.S. Supreme Court’s ruling that Internet communications enjoy the same level of protections as books and periodicals. Because the installation of filtering devices interferes with access to constitutionally protected speech and intentionally denies patron access to information, the ILA strongly opposes the use of such software in Iowa’s schools and libraries. Moreover, the ILA is adamant in its opposition to federal and state attempts to mandate the use of filters.

Parents and legal guardians have a responsibility to guide their children’s use of library materials, resources, and services. The Iowa Library Association believes that libraries and schools are obligated to teach responsible and effective use of the Internet. The management of this new, important resource must always be carried out with unfailing concern for the privacy and confidentiality of school and library users.

CYP NAME CHANGE APPROVED

For the past two years, CYP members have been studying their name and the meaning of the term, Children and Young People’s Forum. Each January, CYP officers had a goal setting session and repeatedly the thoughts of having a more accurate name that truly describes what youth services librarians actually do in public libraries has been discussed.

This past April, three names were presented to the CYP membership at their business meeting during the Kids First Conference. They were: Children and Teen Advocacy Subdivision – CTAS; Youth Advocates Subdivision – YAS; and Youth Service Subdivision – YSS. Members have had many months to think about the change and at the Iowa Library Association Conference in Dubuque a vote was taken during the subdivision business meeting. The winning name is Youth Services Subdivision (YSS).

The purpose of YSS is to:
- Encourage active involvement of all librarians serving the needs of young people
- Upgrade library service in reader and user guidance, reference, programming, public relations, collection development, and departmental management for all users of young people’s library resources.
- Promote cooperation and communication among librarians and others with mutual concerns.
- Increase public awareness of youth services.
- Promote quality basic professional education and encourage growth through continuing education.

The members of YSS look forward to offering a variety of opportunities for their membership in 2006. All ILA members are welcome to join the Youth Services Subdivision.

Leadership Institute continued from page 1

At the Institute you will participate in activities designed to help you:
- Recognize yourself as a leader and develop the confidence to become a change agent in your library as well as the larger community;
- Assess your personal leadership style and develop the skills to use that style for effective decision making;
- Seek creative solutions to shape the future of the Iowa Library Association and library service in Iowa;
- Connect to a supportive network of successful library leaders.

What is the cost?

Most of the costs of the Institute are paid for through the generosity of donors, including the State Library of Iowa with LSTA funds and ILA subdivisions. The fee for each participant will be approximately $150; scholarships may be available to participants. In addition, participants are expected to cover travel costs and miscellaneous expenses.

The application form is available in this issue of the Catalyst (page 8), and it is also available on the Association’s website at www.iowalibraryassociation.org. Applications are due February 1, 2006. You will be notified by April 3 if you have been selected to attend the Institute.
This year’s ILA Foundation Scholarship winner for $500 is Sheri Haveman. As Sheri works toward her Master’s Degree in School Library Media Studies, she is also working as the librarian in the Pella Christian High School. In her job, Sheri has passed on her love of books by starting a book club for the students. In the two years since Sheri started her job, the circulation at Pella Christian High School Library has increased six times. She has increased collaboration with the teachers from 0 percent her first semester to 66% in the past year.

One of Sheri’s greatest achievements was applying for and receiving the Council for Education Excellence grant. The money from this grant allowed her to buy books for the Amazing Reading Race, which her school did for 12 weeks last year. It was so much fun, the students and parents are already asking what she is going to do this year.

Sheri is a reviewer for Library Media Connection Magazine, a member of ILA, and also a member of ALA/AASL.

Suzanne Barker Corriell is this year’s winner of the Jack E. Tillson Scholarship for $1000. Suzanne has decided to pursue joint degrees in both law and library science. Because law school takes up so much of her time, Suzanne has limited time for outside employment.

In the past, Suzanne has worked as a Circulation Desk assistant in the University of Iowa Law Library. She also worked as a Research Assistant for Faculty Services at the University of Iowa Law Library. Currently, Suzanne is a senior managing editor for the Iowa Law Review.

Suzanne’s first legal bibliography training made her realize she had never fully utilized reference librarians. To quote Suzanne, “My experiences in the law library have cemented my belief that the law librarians are the library’s most valuable resource, and in doing so have only served to solidify my aspirations.”
All-Iowa Reads Author Louise Erdrich closed out the conference at the Friday lunch. She is pictured here on the left with ILA President Kate Martin, University of Northern Iowa, Cedar Falls.
